

DATE: July 20, 2001

TO: All Local Health Departments
Attn.: Health Officer/Director of Environmental Health/Chief Sanitarian

FROM: Neal D. Fortin, Manager
Food Service Sanitation Section
Food and Dairy Division

SUBJECT: Minimum Program Requirements for FY 2001/02

Attached please find the document "Minimum Program Requirements with Indicators, Official Comments, and Important Factors" for the food service sanitation program in fiscal year 2001/02.

These minimum program requirements (MPRs) were approved on June 21, 2001, by the state/local standards review committee at the MDCH, which is comprised of five state agency representatives and five representatives from various forum of the Michigan Association for Local Public Health (MALPH). This revision updates the MPRs to align with the Michigan Food Law of 2000, but does not make substantive changes.

If you have any questions on the MPRs, please contact Vito Palazzolo, Evaluation Officer, at (517) 241-0140.
